

Private Medical Insurance – *PrivatAccess*

With PrivatAccess, your employees receive counseling, treatment and surgery without long waiting times. They get help when they need it and without being away from work longer than necessary. In addition, it is a desired employment benefit.

Quick Access to Private Healthcare

Euro Accident has its own nurses and psychologists who provide professional advice and assist your employees with setting up appointments with specialists in our authorized network. We can offer an appointment with a specialist within 7 working days, and schedule a surgery within 14 days.

Physician's Online with E-care

Through our online portal, euroaccident.com, we provide a secure web-based physician/patient service to consult on non-urgent medical care needs.

A licensed physician performs an online inquiry and can then recommend actions like; continued testing, referral to a specialist and electronic prescriptions. The service is always open, without waiting time or time-booking.

Popular Employment Benefits

A Private Medical Insurance is one of the most appreciated and desired employment benefits. It helps the company to be perceived as an attractive employer. It is also useful to have the opportunity to co-insure immediate family members.

Prevent work absences

For your employees, it is a great comfort to know that they can easily and quickly get help when needed. This maximizes their productivity, while minimizing work absences.

Impact the Bottom Line

A sick day is estimated to cost at least 10 percent of the monthly salary. Add to that the hidden costs of employees who have limited productivity due to an ongoing physical or mental condition. Private medical insurance is an effective way to get healthier employees, lower costs and reduced risk of production loss.

Five reasons to get PrivatAccess

- Provides quick access to specialist consultations, care and surgery
- One of the most desired employment benefits
- Prevents and shortens expensive sick leave
- Access to online doctors 24 hours a day
- Contributes to safe, healthy, and sustainable employees

Good to Know

- The insurance applies to planned private care in Sweden. In case of emergency care abroad, PrivatAccess covers travel or home insurance with a deductible up to 5 000 SEK.
- The insurance can be written for employees who are between 16 and 64 and is valid until the end of the month the employee turns 67.
- The period of liability is unlimited, which means that compensation can be paid for a loss up to 67 years of age.

Terms and Conditions

Insurance's general pre-purchase information and complete conditions can be found on euroaccident.com. An insurance agreement might have terms which can differ from the general agreement, this will be provided by your insurance broker.

Benefit taxation

Premium paid entirely by the employer is partial benefit taxable. See euroaccident.com for current information.
