

Child and Youth Insurance

Child and Youth Insurance can make a difference to children and parents when life suddenly changes after an accident or sickness. The cover applies around the clock – both in and out of school.

Security for the family

Most people can live with a scar from a graze, but a permanent injury following an accident or sickness can have significant consequences and change the lives of everyone in the family.

With a Child and Youth Insurance plan you can make sure that you have the necessary financial support. In addition to covering various expenses, the plan can pay out a large lump sum if a child is unable to work.

24 hours a day

Even if your child is insured by the preschool or school he/she attends, the school's insurance does not provide sickness cover. In many cases it will only cover incidents that occur at school.

Child and Youth Insurance from Euro Accident provides cover around the clock and can provide a disability benefit following an accident or sickness.

Definition of accidental injury

We insure against involuntary bodily injury caused by sudden and unforeseen external occurrences. We also cover bodily injury caused by frostbite, heatstroke or sunstroke, tick bite infection, sudden knee twist injury or ruptured Achilles tendon, comparable with accidental injury.
