

Disability Insurance

A Disability Insurance policy covers you so that you can afford to be without your salary if you are on sick leave for an extended period. A financial benefit from your insurance policy makes it easier for you to afford your day-to-day expenses.

A little more in your bank account

An extended period of sickness without a salary can put pressure on your personal finances. Even if you receive some benefits from both the State and your employer, loss of income can be a serious matter.

With a Disability Insurance policy, you know that you will receive a benefit to boost your finances every month.

Key aspect of insurance cover

For most people insurance benefits from the State and their employer are not enough to cover a sudden change in financial circumstances in the event of sickness, an accident or death. With one or more of Euro Accident's Group Scheme Insurance policies you can easily supplement your insurance cover as needed.

About group scheme insurance

The State provides basic financial protection that is the same for everyone. This includes sickness benefits from Försäkringskassan and basic state pension. These are only basic benefits, many aspects of which may need to be supplemented.

Group scheme insurance is a cost-effective way to create security for a company's employees or an organisation's members. This type of insurance provides a financial benefit if something unforeseen occurs or an accident happens.

Needs are rarely the same for everyone

Euro Accident can offer tailored group scheme insurance solutions and financial plans to suit both large and small companies and organisations.

Together we create *Sustainable Employees*
